Dear Sir,

On behalf of Larne High School I would like to acknowledge the excellent work carried out by your employees in the school over the past week. Three lifts are now in place which has transformed the school in terms of disabled access and the day after the foyer lift was installed we had a disabled ex-serviceman from Hounds for Heroes in school, and he was able to have direct access to the staffroom for refreshments – this has made a massive difference to the school.

I have been highly impressed with the professionalism of the men who installed the lifts. Although they were working in areas where a large number of pupils pass by each hour, there was no disruption to the running of the school and many staff have commented that they hardly noticed the men in the building.

We are delighted with the job that has been done for us and with the high professional manner in which the job was done.

Yours sincerely,
